Believe it or not, I dislike aeration of the greens as much as you do, but aeration is an essential program to keeping playing surfaces healthy and in good condition. Aeration primarily is performed to control organic matter like decaying roots and grass stems.

Aeration and topdressing are the most effective ways to control organic matter and maintain smooth, firm putting surfaces. This lets your putts roll more true when you hit them! Go make that birdie!

Sadly, it's time to say goodbye to one of our staff members.

Marty is leaving us after more than 5 years of outstanding, faithful service. Many of you have gotten to know Marty over the years, and those of you who have had the pleasure know, he will be missed! Best of luck Marty!

It's been another fun summer here at the Pines, and the best is yet to come! Make sure to come visit during the beautiful N.H. fall months! When the leaves change colors, the course looks amazing!

Remember, after the last leaf drops and the snow starts to fall, you can still get your swing on at PPCC! Our *Full Swing Golf Simulators* will be back this year! Information on Simulator Leagues coming soon!

See you in the Pub - Angela
